IP PATHWAYS
ADAPTIVECLOUD
services ™

Businesses today need to be agile, flexible and responsive. New technologies bring new efficiencies and competitive advantages and IT needs to be in step with the business to lead these new initiatives.

Cloud computing enables businesses to transition from building and maintaining internal systems to quickly and efficiently accessing technologies, when needed, at the scale required.

IP Pathways' AdaptiveCloud Services™ combines community cloud based storage, compute, replication, backup and disaster recovery solutions with existing private cloud infrastructures to form cohesive HybridIT™ solutions.

Cloud as-a-Service Offerings:

- Storage-as-a-Service
- Compute-as-a-Service
- Infrastructure-as-a-Service
- Storage Replication-as-a-Service (for NetApp)
- Vault-as-a-Service (for NetApp)
- DR Compute-as-a-Service
- Monitoring-as-a-Service
- Desktops-as-a-Service
- Office365 with IP Pathways
- Cloud Backup using Veeam Connect
