- Disaster Recovery & Business Continuity Planning
- Managed & Co-Managed IT Services
- Project Based Professional Services
- 24x7x365 IT Support
- Offsite Backup

Deliver Services and Applications Fast

Count on us to help you quickly deploy applications for advanced technology services that accelerate student programs.

Keep Students Safe

We architect and implement information security solutions to protect students while online, plus leverage solutions such as integrated video security, data storage and access controls to maintain safety on campus.

Improve Strategies

We work with you to execute smarter, more effective strategies. We also support and standardize processes to efficiently meet the demands of the many departments, schools and organizations that IT supports.

Meet Changing Data Demands

Educational institutions must manage the day-to-day demands of their data center. We enable an innovative, technologically-advanced environment for administrators, faculty and students.
